

EU Declaration of Conformity - Vibe-Pythonpass

Name and type of the product: Vibe-Pythonpass Password Manager, web-based password manager with React frontend and Flask backend, version 1.2.5, product type: software with digital elements.

Manufacturer: Vibe Security GmbH, Friedrichstrasse 123, 10115 Berlin, Germany.

Sole responsibility statement: This declaration is issued under the exclusive responsibility of Vibe Security GmbH as the provider of the product.

Object of the declaration: Vibe-Pythonpass Password Manager, a SaaS-style credential management application for storing, generating, and managing user passwords across web services. For traceability, the document can mention the product logo and a small screenshot of the vault dashboard or login screen as identifying visual reference.

Statement of conformity: The identified product complies with the relevant Union harmonisation legislation, including Regulation (EU) 2024/2847 and the applicable cybersecurity requirements for products with digital elements.

References used as basis for compliance: ISO/IEC 27001:2022, OWASP ASVS 4.0.3, OWASP Top 10 2021, internal secure development and vulnerability management policy, and a documented security review process for authentication, encryption, and patching.

Notified body: Not applicable in this fictive example, because the product is self-assessed under the applicable procedure. If you want, this section can instead mention a fictional body such as “CyberSecure Certification Ltd., No. 2468” with a certificate number.

Signature block and additional details: Berlin, 2026-05-19; signed by Dr. Sarah Chen, Head of Security and Privacy; signature line included.
